

# Introducing the high-quality price alternative for use in OKI® C9300 / C9500

## Product Warranty Information

The manufacturer warrants that its color toner cartridges are suitable for use in the intended models of color printers and are free of defects which could cause damage to these printers. Should it be shown that a printer is damaged due to the use of this product, the manufacturer will pay reasonable and customary charges for the repair of your printer. The use of this product will not void your printer's warranty.

Despite some manufacturers' scare tactics, your printer's warranty is not voided when you use our products. Federal law prohibits printer manufacturers from taking such action, which would result in limiting your choice in supplies.
